

# A Cleaner Space for Moms & Babies

Non-toxic, long-lasting cleaner designed for  
spaces where little ones spend their earliest days

**Long-lasting  
Protection**

**Non-toxic  
Formula**

**Fewer  
Products**

## Long-Lasting Clean. No Harmful Chemicals.

### Safe Across Your Space

Use on toys, changing areas,  
tables, upholstery, electronics  
and other high touch areas

### 5-Day Surface Barrier

Creates an invisible protective  
barrier that prevents grime  
buildup on high-touch surfaces

### Simplifies Cleaning

Long-lasting surface protection  
means less repeat cleaning, less  
product use, and lower costs.

### Non-Toxic & Gentle

Dermatologically approved  
to be safe for babies, and  
food-contact surfaces.

## Made for Spaces Mom's Trust Most

- ➔ Effective in high-traffic areas & leaves surfaces food grade safe
- ➔ Easy spray-and-wipe, won't damage finishes or furniture
- ➔ Cleans all surfaces to meet medical-grade hygiene standards
- ➔ Neutralizes odors at the source instead of masking them

# A Clean You Can Feel Good About

## 1. *Is Nano Hope safe to use around babies, children & new moms?*

Nano Hope's non-toxic formula breaks down into water and oxygen after use. It can be used throughout spaces shared by babies, children, moms, and staff, including play areas and food-contact surfaces.

## 2. *Where can we use Nano Hope in our space?*

Nano Hope can be used across toys, play areas, tables, changing areas, counters, glass, upholstery, electronics, and other frequently touched surfaces. Its alcohol-free, non-corrosive formula makes it easy to use one solution throughout your space.

## 3. *How is Nano Hope different from traditional cleaners?*

Nano Hope cleans while forming an invisible protective surface barrier that helps prevent soil and grime buildup for up to five days. This helps high-touch surfaces stay cleaner between routine cleanings and reduces the need for constant re-cleaning.

## 4. *Can Nano Hope help simplify our cleaning routine?*

Yes. Nano Hope replaces multiple cleaning products with fewer SKUs and works across a wide range of surfaces. Staff spend less time switching products and repeatedly cleaning the same surfaces, creating a simpler and more efficient routine.

## 5. *Does Nano Hope help with odors?*

Yes. Nano Hope neutralizes odors at the source rather than simply masking them with fragrance. It's ideal for changing areas, diaper pails, bathrooms, upholstery, and other spaces where persistent odors can quickly become noticeable.
