

Clean your Casino with Nano Hope

5 Day Surface Barrier Protection

Long-Lasting Clean Unmatched Performance

Remove nicotine buildup

Cleans nicotine off of all surfaces including slot machines & prevents buildup for up to 5 days.

Safe for all surface types

Cleans glass, marble, wood, leather, electronics & more without corrosion or streaks.

Eliminate fingerprints

Repels fingerprints to create a 5 day shine on glass, mirrors & stainless steel.

Long-lasting gloss finish

Invisible protective barrier leaves a gloss finish that prevents nicotine from sticking.

From Slot Machines to Poker Tables —We've Got You Covered.

- ➔ Streamline Operations & **cut cleaning costs up to 20%**
- ➔ **Non-toxic formula**—safe for guests & staff
- ➔ **Neutralizes odors** at the source rather than masking them
- ➔ Safe across **slot machines, card tables, leather, screens & more**

Learn More about Nano Hope's Surface Cleaner + Defense Barrier

- 1. *What makes Nano Hope's Surface Cleaner + Defense Barrier unique?***

Most cleaners give short-term results. Nano Hope cleans while creating an invisible protective barrier that helps prevent grime from reattaching for up to 5 days. That means easier ongoing cleaning, fewer repeat wipe-downs, and more efficient maintenance across busy casino environments.
- 2. *How does Nano Hope help reduce cleaning time and costs?***

Nano Hope's protective barrier makes it harder for grime, fingerprints, and everyday buildup to bond to treated surfaces. Staff can clean high-touch areas faster and reduce repeat cleaning—helping streamline operations across gaming floors, guest rooms, restaurants, restrooms, and more.
- 3. *Can Nano Hope remove stubborn nicotine buildup?***

Yes. Nano Hope breaks down stubborn nicotine residue on slot machines and other surfaces without leaving behind a sticky residue. It's ideal for buttons, touch screens, stainless steel, plastic panels, and other high-touch areas where nicotine buildup can be difficult to remove.
- 4. *Is Nano Hope safe to use around people & food?***

Nano Hope's patented nanotechnology is non-toxic and residue-free, breaking down into water and oxygen after use. It's safe for guests and staff and can be used directly on food-contact surfaces.
- 5. *Where can Nano Hope be used throughout a casino?***

Nearly everywhere. Nano Hope can be used across gaming floors, slot machines, restaurants, bars, guest rooms, restrooms, elevators, lobbies, and other high-traffic areas. It's safe for a wide range of surfaces, including metal, plastic, stainless steel, leather, glass, and electronics.
